Secrets: Cool Deals

Cool Deals Highlight

Joining the ranks of other contemporary art museums without removing the word "craft" from its name, the San Francisco Museum of Craft+Design opened this year on October 23rd. In addition to showcasing contemporary craft and design, the museum also offers educational resources. Take advantage of the free admission offered until the end of 2004. For more information, go to sfmcd.org.

Spark tips

- * A good place to start is sfarts.org, which has a searchable database of current events with a "Show All Free Events" search option.
- * If time is no object but money is and there is a particular dance or theater performance you want to see, volunteer as an usher. And if there is a museum you want to visit, volunteer as a docent. Contact the arts organization directly for more information.
- * Many art galleries are open to the public without admission fees and they are among the best places for viewing the latest in visual art. Check out artweek.com for exhibition listings on the West Coast.
